WORK EXPERIENCE

Software Developer -Vibhuti Technologies

Nov 2022 - Feb 2024

- Backend Development: Proficient in PHP, Laravel, and backend systems for creating scalable and secure web applications.
- API Integration & Development: Experience in designing and implementing RESTful APIs for seamless communication between software components.
- WordPress & Shopify Customization: Skilled in customizing WordPress themes, developing plugins, and creating custom Shopify apps.
- Database Optimization: Expertise in managing and optimizing databases like MySQL and PostgreSQL for efficient data storage and retrieval.
- Problem-solving & Results-driven: Strong problem-solving abilities, attention to detail, and ability to deliver high-quality code within deadlines

PHP Developer - Macrew Technologies

Feb 2024 - PRESENT

- Architected and implemented complex web applications using PHP frameworks (e.g., Laravel, Wordpress) to deliver scalable, high-performance solutions for enterprise clients.
- Designed and optimized RESTful APIs, significantly improving system integration and enhancing overall application performance.
- Conducted thorough code reviews and provided mentorship to junior developers, ensuring adherence to coding standards and best practices across projects.
- Collaborated with cross-functional teams to define project requirements, design software solutions, and successfully deliver multiple high-impact projects on time and within budget.
